Porcelain base for electrical socket and switch/dimmer  
Finish: Black

### Description

The porcelain base is an essential accessory for those who want to create a visible electrical system with a vintage look. Made from durable and long-lasting porcelain, it is designed to be paired with a Creative Cables brand porcelain socket or switch/dimmer, even in cases where the wall is not perfectly level. Compatible with large section cables, it has an entry/exit point, to connect multiple products from the same line and/or multiple light points.

Made from the same porcelain as the other products in the series (from sockets to junction boxes), this base is durable and certainly charming. Porcelain, in fact, is a material widespread and appreciated around the world for its beauty, durability, and technical qualities. Its millennia-old history attests to the skill and craftsmanship of ancient artisans who created a treasure that still retains the same allure as in the past.

### Data Sheet

Porcelain electric socket base:

- Dimensions: Ø 100 mm, h 25 mm

- Available in white or black

Compatible with large section cables: H05VV-F 3x1,50

This accessory is compatible with all Creative Cables branded porcelain sockets and dimmers.

Small imperfections should not be considered manufacturing defects, but rather a characteristic of the product that speaks to its special handcrafted nature.
