LED Milky Globe Light Bulb G125 4W 470Lm E27 2700K - M05

Description

Classic spherical shape, large dimensions and white opalescent glass: introducing the G125 LED Globe light bulb, a classy solution for your lamps to enrich your surroundings with lights on or off.

What are the specifications of this light bulb?

The M05 light bulb features a 4-watt power consumption and offers a brightness of 470 lumens, providing warm and pleasant lighting with a light colour of 2700K. Thanks to the E27 fitting this bulb is compatible with most lamp holders, facilitating the installation and replacement process.

What kind of light does the M05 light bulb radiate?

Thanks to the warm light colour (2700K) this light bulb perfectly adapts to different needs. It can be used as a central hung ceiling light or as a wall or table lamp, to add a touch of warmth to any setting.

Compared to clear glass, the **satin glass** ensures smooth, even lighting to help reduce glare and reduce eye strain.

What technology does the M05 light bulb use?

The M05 light bulb boasts a LED filament technology. The opalescent glass radiates a clear but soothing lighting compared to clear glass. It also guarantees high energy efficiency with a life span of over 15.000 hours. Enjoy your reliable, high-quality illumination without making dent in your electricity bills.

Create a welcoming atmosphere for all with the G125 M05 Milky Globe 4W 470Lm E27 2700K light bulbs. A product with an excellent price/quality ratio.
